

Fire Action Plan

Dulcinea

Crew Orientation:

- *Location of Fire Extinguishers*
- *Location of Fire Blanket*
- *Location of Buckets to be used in Emergency*
- *Review use of Fire Ext*
- *Location of Wash Down Pumps and other alternatives like hand held shower fixtures....*
- *Location and use of Engine Fire Port*
- *Practice shutting off electrical DC power*
- *Fight Fire by removing O2 or Fuel Source*
- *Risk Areas ENGINE, GALLEY, ELECTRICAL PANEL*

At the first sign of SMOKE, excessive HEAT, or noticeable FLAMES.....

- Crew member shouts out FIRE FIRE FIRE and the location of the FIRE
- Locate Fire Ext and start using on fire
- Electrical Fire turn off power to the panel
- Abandon Ship Risk Assessment:
 - If fire can be put out? Then continue fighting fire.
 - If fire can't be put out? Then divide up and one crew contains fire as best they can while others prepare to Abandon Ship.
- Watch Keeper stay on Watch
